

ELECTRONIC LABELING SYSTEM 1280 **USER'S GUIDE** English / Español www.brother.com

### INTRODUCTION

With your PT-1280, you can create labels for any application. Select from the many frames, character sizes and styles to design beautiful custom labels. In addition, the variety of tape cartridges available allows you to print labels with different widths and exciting colors.

Read this manual carefully before starting and keep the manual in a handy place for future reference.

#### FCC NOTICE

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Heorient or relocate the receiving antenna.
   Increase the separation between the equipment and receiver.
   Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
   Consult the dealer or an experienced radio/TV technician for help.
   Changes or modifications not expressly approved by Brother Industries, Ltd. could void the user's authority to operate the equipment.

#### **GENERAL PRECAUTIONS**

- . Use only Brother TZ tapes with this machine. Do not use tapes that do not have the 🍱 mark.
- Do not clean the machine with alcohol or other organic solvents. Only use a soft, dry
- Do not touch the print head mechanism. Use a soft wipe (e.g. a cotton swab) when cleaning the print head.
- · To avoid injuries, do not touch the cutter's edge
- To prevent damage or breakage of the glass, do not press hard on the LCD display. • Do not put any foreign objects into or heavy objects on the machine.
- · Do not leave any rubber or vinyl on the machine for an extended period of time, otherwise the machine may be stained.
- Do not get the machine wet, such as by touching with wet hands or spilling beverages on to the machine.
- · Do not expose the machine to extremely high temperatures or high humidity. Never leave it on the dashboard, in the back of your car, near heaters or other hot
- appliances. Keep it out of both direct sunlight and rain.
- Avoid using the machine in extremely dusty places.
- Do not pull on the tape being fed from the P-touch labeler, otherwise the tape cassette may be damaged.
- Do not attempt to cut the tape while printing or feeding since this will damage the tape. • Do not try to print labels using an empty tape cassette set in the P-touch labeler. Doing
- so will damage the print head. · Remove the batteries and disconnect the AC adapter if you do not intend to use the machine for an extended period of time. (Note: When power is disconnected for more than three minutes, all text shown in the display and any text files stored in the
- memory will be lost. Language and unit settings will also be cleared.) Do not use old and new batteries together or mix alkaline batteries with other type batteries, or set the positive and negative end in the wrong position. Otherwise, the batteries may leak or be damaged.
- Use only the AC adapter designed exclusively for this machine to prevent any

## **PREPARATION**

### **Unpacking Your P-touch Labeler**

Check that the package contains the followings before using your P-touch labeler.

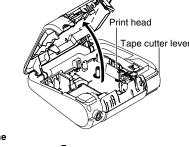

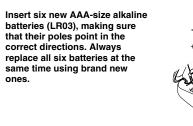

Included items may differ by distribution

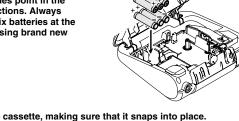

### **Power Supply & Tape Cassettes**

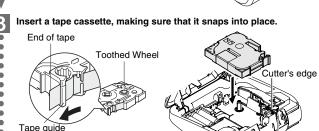

Open the back cover by pressing in the rough area at the top end of the machine. If a tape cassette is already installed, remove it by pulling it straight up. Also, if batteries are already installed, remove them. Make sure that the power is turned off when replacing

batteries or tape cassette

- Make sure that the end of the tape feeds under the tape guides. • If the ink ribbon is loose, use your finger to wind the toothed wheel in the
- direction of the arrow on the cassette. Use only Brother TZ tapes with this machine.
- Securely close the back cover, making sure that it snaps into place. After you have installed the tape, feed the tape (see Feeding) once and then push in the tape cutter lever to cut the tape.

- 1 Insert the plug on the adapter cord into the adapter jack on the top end of the
- 2 Insert the plug into the nearest standard electrical outle For memory back up, we recommend using AAA-size alkaline batteries (LR03) together when using the AC adapter.

## **OPERATION**

**Keyboard & LCD** 

#### Underline/Frame Print key Cursor key (Use with Shift key to go to top/end of Power key Function key Preview key Favorite keys Character key Tab kev OWERTYUIOP Enter key Caps key Caps A S D F G H J K L ; Shift key -Shift key Shift Z X C V B N M ,? ./

enter can be up to 80 characters in length.

### Initial Setting

- Start your machine Supply power by using six AAA batteries or the optional AC adapter, and then
- Set the language (English/Spanish/French/Portuguese) • English Choose a language with ( ) and press

- The machine automatically turns off if no key is pressed within 5
  - To cancel operations, press
  - To initialize the settings, turn off the machine and then while holding down and R, press (b) to turn the machine back on.

### **Creating Labels**

See the under side for steps of creating labels.

## REFERENCE

### **Troubleshooting**

Message	Cause/Remedy						
Battery Weak!	The batteries are weak.						
Check Battery!	The installed batteries are about to run out.						
Invalid!	There is no text above the cursor when you set Numbering. Invalid character is selected for Numbering. Invalid number is selected for Tab Length or Label Length						
No Text!	You tried to print a text file when there is no data stored in the memory.     The Print key is pressed when no text is entered.     You tried to set Copies, Numbering or Mirror when no text is entered.						
Line Limit!	You tried to enter a 3rd line by pressing Enter key.     You tried to print a 2 line text when 9/64" (3.5mm) or 1/4" (6mm) tape is installed.						
No Cassette!	You tried to print a label when there is no cassette installed.						
Cutter Error!	Tape cutter lever is used in the middle of printing process.						
Full!	The maximum number of characters (80 characters) have already been entered.						
Text Too Long!	The text length exceeds the selected label length or the selected Auto Format setting length.						
No Frame OK?	Printing on 9/64" (3.5 mm) tape with invalid Frame setting ON. (Select of to print with no Frame, of to cancel.)						

#### What to do when...

Problem	Solution						
The display stays blank after you have turned on the machine.	<ul> <li>Check that the batteries are correctly inserted.</li> <li>If the batteries are weak, replace them.</li> <li>Check that the AD-30 adapter is correctly connected.</li> </ul>						
The machine does not print, or the printed characters are blurred.	<ul> <li>Check that the tape cassette has been inserted correctly.</li> <li>If the tape cassette is empty, replace it.</li> </ul>						
The printed characters are not formed properly.	The batteries may be weak. Replace them.						
The memory has cleared on its own.	The batteries may be weak. Replace them.						
A blank horizontal line appears through the printed label.	<ul> <li>There may be some dust on the print head. Remove the tape cassette and use a dry cotton swab to gently wipe the print head with an up-and-down motion.</li> <li>The print head can be cleaned more easily if the optional print head cleaning cassette (TZ-CL3) is used.</li> </ul>						
The machine has "locked up" (i.e., nothing happens when a key is pressed, even though the machine is on).	<ul> <li>Turn off the machine, and then while holding down and R, press to turn the machine back on. Finally, release and R.</li> <li>Note: The text and formats in the display and all text files stored in the memory are erased. Also, the language and unit settings will be cleared.</li> </ul>						

### **Specifications**

Item	Specification					
Dimensions	6.4" (W) × 6.0" (D) × 2.4" (H) (160 mm (W) × 151 mm (D) × 60 mm (H))					
Weight	1.03 lbs. (470 g) (without batteries and tape cassette)					
Power supply	Six AAA-size alkaline batteries (LR03) or optional AC adapter (model AD-30)					
Tape cassette	Brother TZ tape (width): 9/64" (3.5 mm), 1/4" (6 mm), 3/8" (9 mm), 1/2" (12 mm)					

### Accessories (Supplies may differ by distribution.)

Accessories	Stock No.					
Tape Cassettes	See the attached "Supplies and Accessories Guide".					
AC Adapter	model AD-30					
Cutter Unit	TC-5 (replacement)					
Carrying Case	CC1000					

If the cutter blade becomes blunt after repetitive use and the tape cannot be cut cleanly, replace with new cutter unit (stock no. TC-5) by obtaining from an authorized brother reseller.

ABC <u>ABC</u> (ABC) [Callout] [Banner]

ABC

Setting [Tab] You can make aligned texts by setting tabs. Example: To set a tab between "ABC" and "D"

The cursor should be positioned where you set a tab

Frames can not be printed on 9/64" (3.5mm) tape

→ ( ) [Tab] ( ) Display ÂBC**⊡**D **Setting [Tab Length]**(Auto / 0.0" - 4.0")(((+) ± (-)

You can also select the length by entering the length with Num keys.

Setting [Label Length](Auto/1.2"-12.0")((6)+12) (abel Length) (abel → (b) (abel Length) (abel + 1.2" + (abel + 1.2") (b) • You can also select the length by entering the length with Num keys.

**Setting [Auto Format]** ((Fn) + 8\*) You can choose label length from six formats to create labels for various ap-

# 3 PRINTING LABELS

**Text Preview** You can preview the text before printing.

- The LCD shows the whole text and the label length (inch/mm), then returns to the
- Only the text can be previewed, not the font, style, size, underline/frame or any

### Feeding (Tape Feed)

## **Printing**

- To cut off the label, push in the tape cutter lever on the upper-right corner of the
- To prevent damage to the tape, do not try to cut while the message "Print" or "Feed"

Setting [Margin] (Tape Margin) (Full) ⊕ → (Full) ⊕

[Full]/[Half]/[Narrow] is for leaving equal margins on both sides of the text. NOTE: Cut along the printed dots (:) with scissors so the text is centered in the label. 1/6" 1/6"

[Chain Print] is for printing more than 1 copy of a label with minimum margin <e.g. 1>. You can also create a label containing texts in various styles; print a text in one style, and before feeding, enter the second text in another style <e.g. 2>. FEED THE TAPE BEFORE USING THE CUTTER (see Feeding/Printing). Otherwise A PART OF THE TEXT MAY BE CUT OFF. Do not try to pull the

tape since this may damage the tape cassette. <e.g. 2> ABC ABC ABC ABC ABO

((Fn) + 0')

**Using [Print Option]** 

[Copies] You can print up to 9 copies of each label. Set 1-9? 5

You can also select the number of copies by entering with Num keys. [Numbering] You can print many copies of the same text while increasing a selected number by 1 after each label is printed.

Example: To print copies of a label containing a serial number (0123, 0124 and 0125) → (ii) → (iii) [Print Option] (iii) → Numbering 
Set 3-9? 5 
Set 3

Select the highest number you wish to be printed when setting the number. (Mirror] ( → (Mirror Print?) ( ) → (Mirror) ( ) → (Mirror Print?)

J.SMITH

Use clear tape in [Mirror], so the labels can be read correctly from the opposite side when attached on glass, windows or other transparent surfaces.
