Standard TZe Tapes are laminated with standard adhesive and split backing making them the best choice for most jobs. They stick to practically any smooth or flat surface and are very durable too. You won't have to worry about peeling due to temperature or moisture either because TZe Tapes are heat and moisture resistant. Oh yeah, did we mention and won't fade either because they're UV resistant?

Extra Strength TZe Tapes have the same lamination characteristics but a stronger adhesive backing that has twice the adhesive strength than the standard TZe tapes. These tapes can be used on those hard-to-stick surfaces. While flat surfaces always work best, extra strength adhesive tapes can be applied to rough or textured surfaces as well.
